Empire Hydrogen Corporate Update

Sidney, BC: The Board of Directors of Empire Hydrogen Energy Systems is pleased to announce the appointment of Andrew Evans to the position of Executive Vice President. Andrew comes to Empire with 30 years of business experience, particularly successful at taking start-up companies to maturity. He holds Bachelor of Commerce and Bachelor of Law degrees, along with the Chartered Financial Analyst professional designation. His specialty is with high level sales and marketing in a business-to-business setting, but is well experienced in all aspects of company operations including managing technological development, LEAN manufacturing and finance. Andrew will be assisting CEO Sven Tjelta with all aspects of Empire's progress over the coming years.

On March 13, Empire CEO Sven Tjelta had the pleasure of attending a reception held by the Embassy of Norway in conjunction with the BC Tech Summit. Sven is pictured with Her Excellency Anne Kari H. Ovind, Norwegian Ambassador to Canada (L), and Mr. Stein Gudmundseth, Consul General (C). The Country of Norway is particularly interested in Empire's greenhouse gas and smog reducing technology. The City of Oslo recently instituted its first one day ban on diesel trucks due to excess smog.

For more information please contact Sven Tjelta or Andrew Evans at Empire Hydrogen at 778.426.0911.
