### **Empire Hydrogen Hosts Maritime Officials at Manufacturing Facility Tour**

**Sidney, BC – September 19, 2025** – Empire Hydrogen Energy Systems Inc. proudly welcomed active and retired officials from the Canadian Coast Guard and the Canadian Institute of Marine Engineering (Vancouver Island Branch) for an exclusive tour of its manufacturing facility on **September 17, 2025, at 7:00 p.m.**

The visit offered maritime leaders and professionals an in-depth look at Empire Hydrogen’s journey from research and development to commercialization of its innovative Fuel Enhancement Systems (FES). Attendees had the opportunity to see the production process firsthand, followed by a detailed presentation highlighting the company’s clean energy mission, industry applications, and achievements to date.

The evening concluded with an engaging **Q&A session**, where participants expressed enthusiastic support and raised **investment inquiries**, reinforcing the growing confidence in Empire Hydrogen’s technology and future growth.

In a special moment of recognition, **Sven Tjelta, Chairman of the Board of Empire Hydrogen**, was presented with a **Certificate of Recognition** by the Canadian Institute of Marine Engineering, acknowledging the company’s contributions toward innovation and sustainability in the maritime sector.

“We are deeply honoured by the recognition and inspired by the strong interest shown by Canada’s maritime community,” said Sven Tjelta. “This event reflects the importance of clean technology in shaping the future of transportation and marine operations, and we look forward to building on this momentum with continued support and collaboration.”

Empire Hydrogen remains committed to advancing its mission of making the environment **cleaner and greener**, while supporting the maritime industry and beyond in achieving significant fuel savings and emission reductions.
