Empire Hydrogen Welcomes Volker Stevin's General Manager, Mike Philip, Following Successful Fleet Deployment

Sidney, BC — November 3, 2025 — Empire Hydrogen Energy Systems Inc. is pleased to announce the recent visit of Mr. Mike Philip, General Manager of Volker Stevin Highways in Alberta & Northern British Columbia following the successful installation of several Empire Hydrogen Fuel Enhancement System in the company's fleet for the reducing harmful emissions and fuel savings.

The meeting, held at Empire Hydrogen's facility, was highly productive and reaffirmed Volker Stevin's confidence in Empire's clean-technology solution. Mr. Philip expressed his optimism regarding the system's performance and its potential role in advancing sustainable fleet operations across Alberta and Northern BC.

"We are very encouraged by the early results and the professionalism shown by the Empire team," said Philip. "This technology shows real promise for improving fuel efficiency and reducing emissions across heavy-duty fleets."

Empire Hydrogen's management echoed these sentiments, emphasizing that the successful deployment at Volker Stevin marks an important step forward in expanding Empire's footprint within Alberta's transportation and infrastructure sectors.

"This visit underscored the strong partnership we're building with Volker Stevin," said Tom Sponarski, CEO of Empire Hydrogen. "Their confidence in our system is a testament to our technology's performance and the hard work of our engineering and operations teams. We believe this milestone opens doors to broader adoption throughout Alberta and beyond."

Empire Hydrogen remains committed to supporting fleets across Canada with innovative hydrogen-on-demand solutions that improve combustion efficiency, lower emissions, and contribute to a cleaner, more sustainable future.
